## Software Developer

✉ katevanili98@gmail.com ☎ +254717337102 in LinkedIn 🐙 Github

### Profile

---

Recent Software Development graduate with fundamental knowledge of software design, development, and testing. Seeking to utilize broad educational background with excellent analytical, technical, and programming skills to thrive as an entry-level software engineer and Tester.

### Education

---

08/2018 – 05/2023 **Bachelor of Technology in Design**, *Technical University of Kenya*

01/2022 – 06/2022 **Software Development**, *Moringa School*

### Technical Expertise

---

#### Programming Languages

Javascript, CSS, Python,

#### Databases

PostgreSQL, MySQL,

#### Frameworks

Django, React, Angular, Flask

#### Tools

Visual Studio, Postman, Swagger

### Projects

---

#### Marikiti Greens,

*This is an e-commerce website that allows users to navigate through a listed items of fresh produce.* ☑

**News Api**, *News app that displays news and also allows the user to search for news from different sources.* ☑

**Quotes App**, *This app will allow its user to add, delete, upvote and downvote any quote. It will also display the time since any particular quote was added to the application.* ☑

**Others**, *Done more than 30 projects in my github repo* ☑

### Professional Experience

---

2019 – present

#### Software developer, *Independent development work*

- Employ best coding practices and object-oriented programming techniques to work on different software development projects
- Work as a part of a 7-member team to develop, release and update Marikiti e-commerce application.
- Obtain a solid understanding of embedded application development by creating, testing, and deploying applications on custom hardware using python.

#### Self-learner

Learned software testing skills like performance testing and using software testing frameworks such as JMeter alongside the Software Development course at Moringa. I have used online materials to supply this knowledge hence I can learn new software by myself.
